<b>Office Action Summary</b>	Application No. 09/977,739	Applicant(s) VALBH, ANIL I.	
	Examiner DARYL C POPE	Art Unit 2632	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Drawings*

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### **ART REJECTION:**

#### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. **Claims 1-3,5,10,11-13,15, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Wright et al(6,161,066).**

-- In considering **claims 1-3,5,10,11-13,15, and 20** the claimed subject matter that is met by Wright et al(Wright) includes:

1) the card reading device is met by the HHU(44);

2) the processor for analyzing the scanned data is met by the internal memory of information storage media( see: column 6, lines 1-10);

3) the display is met by the touch sensitive screed device(18);

4) the transmitter for wirelessly transmitting data to the central station is met by the wireless modem(48) for transmitting information to the central controller(22) of the vehicle(see: column 6, lines 11-14);

5) the receiver and monitor for displaying driver's license information is met by the receiver of the computer(60) and monitor(18, column 8, lines 61 et seq).

-- **Claims 4 and 14** recite subject matter met as discussed in claim 1 and 11 above, respectively above, as well as the printer is met by the printer(42).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. **Claims 6-9, and 16-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wright et al(6,161,066).**

-- In considering **claims 6-7 and 16-17**, the examiner takes Official Notice that in the Law enforcement technology art, use of buttons or keys for alerting other police vehicles in a surrounding area for backup is well known. As well, use of automated systems for printing and mailing traffic tickets is also well known.

Since Wright already includes a printer, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate a key for causing a printer to print and mail a traffic ticket since this would have expedited the process for providing an offender with a ticket when warranted. As well, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate a key for alerting other police vehicle in the area so as not to require an officer to go back to the vehicle to make the request.

As well, all other claimed subject matter is met as discussed in claims 1 and 11 above, respectively.

-- In considering **claims 8-9 and 18-19**, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate cellular transmitters and receivers, or any other communication medium as desired since one of ordinary skill would have recognized the most advantageous method of signal transmission in the system.

As well, all other claimed subject matter is met as discussed in claims 1 and 11 above, respectively.

### ***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DARYL C POPE whose telephone number is (703) 305-4838. The examiner can normally be reached on M-TH 7:30-6:00.
